

POLICY OF BULGARIA REVEALED BY PREMIER

When Interests Are Threatened
Country Will Then Act,
He Declares.

LONDON, March 31.—"The moment when our interests are threatened or affected to our detriment, we, together with the nation, will take the requisite measures," was one of the statements contained in Premier Radoslavoff's declaration regarding the Bulgarian government's policy of neutrality made at the closing session of the assembly, according to the ministerial organ Narodni Prava, says a Sofia dispatch to the Times. The speech of the premier was applauded by the pro-German press. At the last sitting of the assembly a scuffle took place among the Turkish deputies, some of whom accused the others of espionage.

Says Efforts Are Approved.
A report of an address by Prime Minister Radoslavoff at the close of the Bulgarian assembly last Sunday, received today at the Bulgarian legation, reiterated that Bulgaria's neutrality is being considered in connection with her best interests.

The premier declared all the people of Bulgaria approved the efforts of the government to safeguard the interests of the country, except the socialists, and in reply as to why no Balkan confederation had been created he said it was almost impossible to reconcile the respective interests of the Balkan peoples.

He emphasized that the Bulgarian government was continuing to observe strictest neutrality.

In closing the premier declared that if other political parties desired to court war he stood ready to yield his place to them.

CONDITIONS IN SERBIA NOW MUCH IMPROVED

Aid of Friendly Nations Brings
About Change—Medical Supplies Needed, However.

ROME, March 31.—Official reports received from Serbia state that the sanitary situation in that country has been much improved owing to the assistance received from friendly nations, including the United States. Medical supplies are badly needed, however, especially for the wounded.

The spirit of the Serbian army is said to be unbroken and the soldiers are anxious for another opportunity to face the Austrians. The entire nation has bent its energies to making preparations for the next campaign.

Two hundred cannon captured from the Austrians are reported to have been added to the Serbian artillery, while the ammunition obtained from the same source is sufficient to last for several months' operations.

DECLARES PROHIBITION MOVEMENT WORLD-WIDE

Senator Sheppard Pleased With
Lloyd George's Statement, Following Russia's Ban.

"The action of Lloyd George, the British chancellor of the exchequer, denouncing drink as a greater foe to fight than either Austria or Germany is of the greatest significance," said Senator Sheppard of Texas today. "Senator Sheppard is the author of the resolution introduced in the Senate for nationwide prohibition, and he led the fight during the last session of Congress for prohibition in the District of Columbia."

The experience of Russia, which put a ban on the sale of liquor during the war, and the declaration of Mr. Lloyd George as to what should be done in England, continued Senator Sheppard, "show that there is a world-wide movement for prohibition."

Senator Sheppard said that the fight for nationwide prohibition in the United States would be renewed with vigor at the next session of Congress, and that he would press, too, for prohibition in the District of Columbia.

"We will renew the fight all along the line," he said, "as soon as Congress convenes. I expect we shall have strong support from the republican side as well as from the democratic. The effort will be made both for favorable action for submission of a proposed constitutional amendment for prohibition the country over, as well as local prohibition in the District of Columbia."
